ZF E-Generation Internship

Commercial departments within our plant in Pančevo

Join 5th generation of interns and gain first work experience with experts in automotive industry within e-mobility division in ZF Serbia.

What are we looking for:

- Final year student of bachelor or master studies or a recent graduate
- Up to one year of work experience
- Intermediate level of English, proficiency in MS Office
- Proactive and team-oriented individual

What can you expect:

- Paid internship program from 3 to 6 months
- Opportunity to gain hands-on work experience and start career in global automotive company
- Training on the job with an assigned mentor who will provide guidance throughout the program
- Learning from the best in the field, making new connections and building professional network
- Exclusive chance of becoming a ZF full-time employee

Start your career within next departments:

Project Management

You will learn how to create project plan including scope, time and budget baselines, be member in cross functional project team, execute some work packages and follow up other tasks to achieve project goals.

Purchasing

You will learn how to collaborate closely with suppliers to negotiate contracts, ensure timely delivery and maintain cost-effectiveness.

Supplier Development

You will learn about component development, how to become an automotive supplier, what are the core quality tools (8D, 5WHY, ISIKAWA) and core quality processes (CSR, APQP, PPAP, CQI).

Environmental Health and Safety

You will gain practice in compliance with legal requirements, process of training, audits and reporting in above mentioned fields as well as systematic control of implementation of EHS measures in the plant.

Cost Engineering

You will have the opportunity to learn, develop and apply a wide range of skills including engineering design, project management, risk and data analysis, financial modeling and communication.

Finance

You will work on activities connected to external reporting/operational finance as well as creation of management reports for leading the company.

Human Resources

You will be taking an active role in various stages of selection and recruitment processes as well as handling daily HR administration tasks.

Translations & Interpreting

You will gain insight into the organization of the ZF Global Language Service, learn the basics of project management in the translation industry, as well as work with modern translation tools.
